16: THE CLAIRVOYANT (04:38) 17: HALLOWED BE THY NAME (07:52)

As I write this we are getting near to the end of the last leg of what has been an amazing tour for all of us over the last 13 months. The Somewhere Back in Time World Tour has been a huge undertaking with months of planning and logistics before we departed in Ed Force One for the first show in Mumbai way back on Jan 30 2008. When we finish in Fort Lauderdale in April in a few weeks time we will have gone around the planet twice, visiting many new places and playing in 38 countries to close to 2 million of you fans out there, travelling well over 125,000 miles.

Being able to visit all these new countries and cities, many of which we were never able to visit on the original World Slavery Tour in 1984-5, we thought it would be great to recreate the show from that time giving both new and older fans the chance to hear those songs that many of them never had the chance to hear before. Also for us of course it has been a lot of fun playing songs like Mariner again for the first time in 20 odd years! This tour is likely to be the last time that we will ever play some of these songs so every show has been very special.

This collection of recordings represents the set list played throughout 2008. Each track was recorded in a different city from the first leg in February and March 2008 and was then sent off to Kevin Shirley (Producer) in Los Angeles who mixed and produced the audio for this soundtrack.

Listening back to these recordings reminds me of all the fantastic shows and experiences that we had throughout the year and also all the many new friends we made along the way. It's been quite an intensive tour, especially those parts on the plane with the distances involved, but we will certainly enjoy these last few weeks in South America.

I hope in listening to this that all of you who were at the shows are taken straight back to those amazing nights. We've always been a band that are about the live shows and touring which you will see in the upcoming movie Flight 666. For those of you who weren't there then we hope to catch you next time around, perhaps on the next tour when we come to your home town or close by. I'd like to finish by saying a BIG thank you on behalf of myself and all the band for being there and making this tour the fantastic experience and adventure it became. We will soon be thinking about a new album, and once that is completed, we hope to see you all again!!

Steve Harris
6th March 2009, Caracas, Venezuela
